

## **Welcome to Jeremy's 30<sup>th</sup> Birthday Scavenger Hunt!**

Before you start, here's how it works:

*Below, you will find a list of challenges to complete and photograph. Each challenge is worth a certain number of points. You will probably not be able to complete all of them, so choose carefully which things to prioritize.*

*Each time you take a photograph (or Vine) for the hunt, it must be tweeted with the hashtag #Jerls30 in order to get points for it. One person in your group will be the designated Tweeter. This means that all pictures should be taken with their phone, and tweeted from their account. (They are allowed to get other people to use their phone to take the photo, so that they too can be in some of the pictures.) Tally will be watching the account of each team's designated tweeter to keep track of the points your team is accruing.*

***For each challenge, tweet the picture or Vine required, along with the title of that particular challenge and the hashtag #Jerls30.***

*When doing challenges involving random strangers, please make sure that they are comfortable with their photo being taken and shared! (You could always offer to take a picture that doesn't show their face, or that has their back to the camera, etc.)*

*To help on your hunt, your team will be given a bag of "party treasure," full of tools and objects that you may need along the way.*

*Below, there is also a list of objects to find and turn in at the end of the hunt for extra points.*

*To end the hunt: **Meet Tally at 5:45 in Centennial Square.** In the event of a tie, the winner will be the first of the tied teams to arrive at Centennial Square with **all** its team members.*
